The Army Inshore Sail Training Centre (South)

The Army Inshore Sail Training Centre (South) is on Baker barracks, Thorney Island in Chichester harbour, on the south coast of the England. This allows the Centre to sail in Chichester Harbour, or windsurf and kitesurf at a premier site off Hayling Island. The Centre is an Army Sailing Association (ASA) affiliated training centre and anyone attending a course at the centre must be a personal member of the ASA. You can join by following the membership directions on the [ASA website](#).

Starting in the spring the Centre delivers the practical courses in dinghy sailing (including keelboat and multi-hull), windsurfing, powerboating and kitesurfing from basic courses to instructor awards. On light wind days, we run Stand Up Paddleboard courses for those at the Centre for no extra cost. We provide excellent equipment across the disciplines and all hire costs are included in the course fee.

We are open for Army Reserve unit training and individual recreational sailing at weekends during the season. Please contact the Centre for details.

The Centre uses the national governing bodies of the Royal Yachting Association, British Stand Up Paddleboard Association and the British Kite Sports Association to ensure it provides internationally recognised courses. Course publications and certificate costs are included in the course fees.

Marine Radio (SRC)

The Short-Range Certificate (SRC) is the minimum qualification required by law to control the operation of VHF and VHF Digital Selective Calling (DSC) equipment on any British flagged vessel voluntarily fitted with a radio. This includes both fixed and hand-held equipment using International channels. A radio is an important piece of safety equipment on board and it is vital to understand the correct procedures. Unnecessary transmissions could block out a Mayday distress call.

The SRC course is an online course available on the ASA Interactive site. On completion of that course a practical assessment must be undertaken to gain certification. This consists of a written test and a practical assessment using radio simulators.

This one-day course is designed to provide a working knowledge of first aid for people using small craft and to support skippers. It fulfils the requirements for professional skippers of small craft working within 60 miles of a safe-haven, including boat-masters.

- The recovery position in a confined space
- CPR, including the drowning protocol and use of the defibrillator
- Cold shock and hypothermia from immersion and/or exposure
- Seasickness and dehydration
